MEDICAL DEVICE

Full job description

Are you an experienced Clinical Research Associate with a passion for medical device and technology related clinical trials? **Join one of Australia's fastest growing Orthopaedic companies and a recognised Great Place to Work in this newly created opportunity.**

Every patient moves differently, and a joint replacement should be optimized to account for this. Corin is committed to supporting Orthopaedic Innovation from our Australian based technology hub. The performance of our arthroplasty components and global adoption of our Australian designed and manufactured technologies, along with some recent key local and international acquisitions is delivering rapid growth and opportunity.

Due to ongoing success and growth we are looking for an experienced Clinical Research Associate to help support the management and execution of our Australian based studies. You will be part of our small but developing global medical device research team, providing you exciting opportunities for growth and development. This is a full-time, ongoing position and will be based out of Sydney, with our Head Office located in Pymble on Sydney's North Shore however we are also committed to support our employees with a flexible work environment including options to work from home.

As a **Clinical Research Associate (CRA)** with Corin you will be involved in all stages of the clinical study in accordance with regulatory guidelines, local

regulations and SOPs, including assisting with identifying and assessing investigational sites and investigators and setting up, initiating, monitoring and closing down the study. The majority of study sites are based in Sydney, however travel may also be required regionally.

Requirements

To be successful in this role you will need to have prior clinical research experience either with a healthcare company, Clinical Research Organisation (CRO) or hospital/health care provider. Experience in a medical device company is preferred, but not essential. In addition to this, you will have:

- Exceptional interpersonal and communication skills both verbal and written
- Ability to multi-task and manage priorities with effective organisational and time management skills
- Ability to establish and maintain effective working relationships with internal and external stakeholders
- A high degree of accuracy and attention to detail
- Demonstrated flexibility and adaptability
- Ability to think outside of the box, challenge historically defined processes and put forward ideas for change and improvement
- Highly motivated with a proactive approach to learning and problem solving and a passion for innovation
- Ability to travel up to 50%, depending on the stage and needs of the clinical study

Benefits

What's in it for me?

In return we will offer you a competitive remuneration and benefits package, opportunities for growth and development, within a dynamic, successful and supportive team environment. At Corin we believe that to be successful at work, you need to enjoy what you do. You have to be rewarded for your efforts and motivated to keep going even when the pressure's on. We will help you to play to your strengths and develop and build a career you can be proud of. We also recognize that we are living and working in a constantly changing, fast-paced world and we are committed to creating a flexible work environment for our people by supporting them to balance their work commitments and personal needs, both now and into the future.

Who are we?

For further information on who we are, our products and services, please visit www.coringroup.com

We will be looking to fill this position as soon as possible, please note, whilst we would love to be able to respond to you all only shortlisted candidates will be contacted.

Please Note: Due to the current Covid-19 situation and the subsequent travel/visa restrictions in place, we will be prioritizing candidates who are

currently residing in Australia. Applicants must also have a right to work in Australia as Corin Australia is currently unable to sponsor a visa for this position.

Corin is an equal opportunity employer. Qualified applicants are considered without regard to age, gender, race, creed, colour, national origin, ancestry, marital status, sexual orientation, gender identity, disability, veteran status.
