### Full job description

*Perfect Part Time*

#### The Company

Located in Adelaide's inner west our client is a manufacturer and distributor of a full range of CPS HVAC/R and automotive products including chemicals, fluid exchange machines and automotive leak detection equipment.

#### The Role

Currently they have a requirement for a part time Service Technician 3 days a week.. Working alongside the Lead Technician you will be responsible for undertaking both warranty and chargeable mechanical and electronic repairs. This will involve inspection, diagnosis, and repairs to equipment, creating job quotes and basic spare part inventory.

Ideally you will have worked in a similar role and be able to demonstrate a strong mechanical aptitude.

#### Benefits

It is anticipated that the role will be 3 days a week from 8am – 4pm however hours can be negotiated.

Whilst starting in a temporary capacity there is an opportunity for permanent part time employment after a qualifying period. An excellent hourly rate is available and once you are permanent part time there is also a bonus scheme that you will be eligible for.

If you have any queries please ring Jan Simmons on 8357 0882 or apply online today.

**Please note that only successful applicants will be contacted.**
