all over Sydney and the surrounding areas. Exceptional company who like support, mentor and promote employees.

**About the Role:** We are seeking a number of Surveyors - ideally with roads, infrastructure or Multi-Story construction experience to work across a number of projects in Sydney.

**About the Duties:**

- You will utilise your Ute as your work office
- Plan your days and conduct surveys as and when required across your allocated projects.
- This role will see you taking responsibility for your own projects
- Nurturing relationships with clients
- Being left to manage the workloads
- You will be supplied with the latest engineering equipment and software
- Daily set outs
- Establish control networks
- Record and upload data
- and have full support from the management team.

**About the Requirements:**

- Formal Surveying or civil engineering qualifications
- Ideally have 3+ years industry exposure
- Construction Survey experience – ideally multi-story buildings
- Civil infrastructure survey experience - roads, earthworks, utilities etc
- Have the ability to undertake calculations & reductions
- Knowledge of the latest survey instruments such as Leica Total Station
- GPS knowledge is an advantage
- Proficient with digital levels
- Experience of using software such as 12d, Civil CAD/Magnet & Civil 3D
- Be driven to get workloads completed
- Have the ability to work in a team or autonomously when required
- Strong communications to liaise with clients and site personnel
- Good IT skills
- Be reliable and punctual and be able to manage your own workloads
