Full job description

At G8 Education we understand that learning begins from birth; more development occurs in the human brain between birth to 5 years than at any other time in the life span. So, we continually strive to achieve best practice in early childhood education and care from birth to 5 years. This begins with recruiting, training and retaining dedicated educators and teachers and supporting them to continue their own professional learning, which leads to positive learning outcomes for children.

Arthur Street Children's Centre offers a comprehensive early education program with a strong play-based learning curriculum. Children enjoy delightful indoor and outdoor play areas, rooms equipped with the latest age appropriate technology and learning resources, and a range of activities.

All children are given the opportunity to help out in the centre's vegetable & herb garden, helping with planting, watering and harvesting the produce. The produce is then used in our daily meals. This is a fantastic sense of belonging and identity that gives the children a true sense of pride and achievement.
