## Full job description

### Client Details

National Australian Business.

### Description

The Manager Stakeholder Engagement will work with the team, and key industry and government stakeholders to ensure we deliver on our strategy. The role will be a key point of contact and coordination, including to work with jurisdictions and key service providers. An understanding of the Australian health sector and demonstrated experience working in health and/or digital health environments.

Key responsibilities:

- Manage key projects and programs of work to ensure that the key priorities and provides value to funders.
- In consultation with the team, develop policies and procedures for managing data sharing and access requests.
- Support the development and implementation of the future strategy.
- Builds external relationships and establishes networks that contribute to the health of the business.
- Attends external meetings, conferences, and industry events.
- Advocates for the customer across Divisions, ensuring the organisation-wide processes meet customer needs.
- Understands government and market dynamics and trends and shapes Divisional processes to cater for these.
- Understands who to engage with and at what level to drive/gain/uncover funding.
- Delivers key messages confidently, and checks back that they have been understood.
- Adjusts communication style and approach to ensure they meet the needs of a wide range of audiences.
- Convinces executives and senior managers to accept

recommendations involving resources and changes in established practice.

## **Profile**

- Demonstrated knowledge and experience in application of project management methodologies.
- Experience working with internal/external stakeholders to deliver complex projects.
- Demonstrated, high level communication, negotiation, analytical and influencing skills to effectively engage, manage, and enhance business relationships.
- High-level verbal and written communication skills to effectively work with all levels of staff and management to maintain productive working relationships and produce professional documentation
- Public speaking capability and the ability to represent an organisation at conferences, workshops, government working groups or standards bodies
- Ability to quickly establish effective relationships.
- Use a team approach to solve problems and maximise opportunities.
- Demonstrated ability to develop and deliver strategies that place customers at the centre of business decisions whilst maintaining compliance.
- Ability to lead courageously by confronting problems directly, taking action and being decisive, even when it may be challenging but the right thing to do.
- Proven, effective stakeholder management skills, with the ability to engage confidently at all levels.
- Proven successful experience leading a multi-disciplinary team in a complex environment using Agile methods, preferably Scrum.
- Proven organisational, project management, reporting and budget management skills.
- Ability to respond resourcefully, flexibly, and positively when faced with new challenges, transitions and demands. Ability to effectively deal with the pressure and complexities of various situations.
