Full job description

Your new company

This company is a well-established design consultancy with 40 + years of client industry relationships, that have secured a strong pipeline of work, even during these uncertain times. They look after a range of commercial, retail and residential projects.

Your new role

They are looking for a Senior Structural Engineer to come and assist with:

- Technical design
- Design review and design process management
- Managing a small team of junior engineers and drafters
- Client engagement with new and existing relationships

What you'll need to succeed

The successful candidate will have the following:

- Extensive experience in structural design working on commercial projects
- Ability to manage a team and delegate tasks accordingly
- Must have strong client facing skills. With the ability to go into a business development role
- Good communication skills

What you'll get in return

A great opportunity to add value to an already successful business. The successful candidate will be able to take a route to senior leadership and become a shareholder of the organisation.

What you need to do now
