Full job description

Experienced Construction Planning Coordinator required for major projects in Melbourne.

The Construction Planning Coordinator will use their well-developed technical skills to ensure jobs proceed to construction in a timely manner while acting as an effective liaison between key stakeholders.

Qualification Required:

Diploma of ESI Power Systems/Associate Diploma of Electrical Engineering/Certificate 3 in Electrical Distribution

Job Description:

The role is responsible for supporting the smooth delivery of construction projects by providing construction expertise during the plan and design phase. Duties throughout the lifecycle of the project will include but are not limited to the following

- Assess job complexity, determine job readiness requirements and progress job in a timely manner
- Review and approve constructability of design, materials and scheduled expectancies and facilitate amendments
- Raise Switching Register Requests (SRR) and Planned Outage Notification (PON) for jobs
- Take corrective action to avoid missed deadlines and/or cost overruns
- Engage with Works Program Delivery for allocation of resources for major jobs
- Establish and maintain effective links with teams in Design & Customer
