Full job description

Looking for Vocationally Registered GP's to join a new clinic in a growing gentrified area in Glengowrie south-west of Adelaide CBD

Practice -

I have a new client looking for 7 -10 GP's to join their new clinic in the Glengowrie area. The area's population has nearly doubled in the past few years and there is **no competition for a 1.5km radius** around the clinic, so there is growing need for more GP's to meet patient demands. The area has 200 free parking spots next to the clinic as well as a nearby pub, shops, public transport and housing. The clinic is also going to have an onsite pharmacy and clinical labs pathology. The practice will have a full complement of allied health, which will include dentists, physiotherapists and psychologists, as well as full time nurses. The client is welcoming a new GP who might be interested in **partnership**, however this is not a requirement to join. There will be 14 consultation rooms and a new GP would have their own private room. The clinic believes there is sufficient demand for up to 10 new GP's.

The clinic is open until 8pm and would welcome someone who wants 1-2 shifts after hours, however they are willing to be quite flexible.

Benefits -

- Earn \$300K+ Salary
- bulk billing - planning to move to mixed billing down the track
- Offering 70% of a negotiable guaranteed income
- **Partnership** Available
- Have your own consultation room
- Affluent area
- Growing demand for GP's which means you will have a patient base very quickly
- Pharmacy on site
- Friendly admin staff
- Allied health and nursing support

- Best Practice
- Opportunity for teaching of the registrars
- Free parking on site

Requirements -

- Must have full AHPRA Registration
- Must be Vocationally Registered as a GP
- Full Australian working rights
