Full job description

Environmental Project Manager / Senior Consultant. Contaminated Lands focused consultancy. Team of 10. Convenient location. Employee friendly culture.

The successful applicant will be a Senior Contaminated Land Consultant with around 8 to 10 years consulting experience. The role will be based in Sydney - north of the bridge. Despite the current impacts of Covid, this company is going through a growth phase having recently won some major projects. This position offers an excellent career progression opportunity to grow with the business.

The position is focused on project management - investigation and remediation of contaminated land and groundwater. We are looking for a motivated individual who will excel in delivering projects and fieldwork programs.

You will be required to also have the following qualifications & experience:

- Degree in Environmental Science / Engineering.
- Strong technical (contam lands) knowledge and excellent report writing skills.

 Work Authorisation
AUSTRALIAN CITIZEN / PERMANENT RESIDENT

- Have a mature and enthusiastic attitude with proven project management experience.
- A true 'client focus' and ability to develop business and win work.
- MUST have a minimum of five years environmental consulting experience with at least two years working in NSW.
- Knowledge of the NSW Waste Framework.

What's in it for you??

- Huge project variety (Defence, councils, developers, bio-remediation...no low margin work like service stations etc).
- Work alongside experienced CLM Auditors
- North-side location (if that's convenient for you!)
- Plenty of free parking at the office.
- Competitive salary and lucrative bonus scheme.

Apply now or contact me for more information. Please submit a resume before you do though as there's only limited details I can disclose prior.
