## Full job description

Sky Communications Aust Pty Ltd is a leading technology based installation company in the Telecommunications market, specialising in Cellular, Microwave Radio, Fibre, Data, Transmission deployment and maintenance.

We are currently seeking skilled Wireless Technician on a permanent basis to work on major rollouts for national carriers.

Responsibilities,

- Experience in the full installation, upgrade and commissioning of 3G, 4G and 5G technology.
- Terminating Hybriflex Cables & Coaxial feeder cables/tails, earthing, cable trays, diplexers, combiners;
- Experience installing and familiarity with the current suite of Nokia, Huawei and Ericsson BTS products.
- Experience in IBC/DAS builds, Transmission networks
- Installation of microwave indoor unit and outdoor unit and commissioning
- DC power rack installation and commissioning including rectifiers, batteries and load testing

- Able to read and interpret clearly technical design documents, and implement/install equipment as per design.
- Perform testing of RF systems for RL, DTF, VSWR and PIM, as required.
- Able to troubleshoot, fault find and diagnose technical issues on site
- Call testing of sites and uploading of all HOP paperwork for site completion.

Requirements:

- Minimum 3 years experience working as a wireless communication technician.
- Flexibility to travel and work away
- Skilled in MS applications including excel and word.
- Working at Heights.
- Senior First Aid & CPR
- RF Awareness training
- Valid and current Drivers licence.
- OHS Construction Card (White card)

The position will be of a Permanent nature and will pay above award rates commensurate with the applicant's experience.

**The positions will be based in Melbourne with travel to regional areas and other states as required.**

**ONLY APPLICANTS LEGALLY ENTITLED TO WORK IN AUSTRALIA WILL BE CONSIDERED FOR THESE POSITIONS**
