AUSTRALIAN CITIZEN / PERMANENT RESIDENT

- You will have responsibility as a workstream lead for commercial and contracting matters on significant Defence programs and working on an end-to-end basis with the customer and other stakeholders.
- Drive innovation in a growing organisation with the interpretation and application of complex Defence regulations.
- Manage, review and negotiate at all stages of Defence prime-contracting, including with key sub-contractors which will require end-to-end implementation and management across establishing and negotiating the associated T&Cs.
- Collaborating with senior leadership to gather requirements for planning of work terms and conditions relating to Defence Projects activities.
- Effective change management.
- Establishment and maintenance of the Defence prime contract and subcontract management database/files in accordance with existing prime/contract management databases/files, and company policy/process.
- Establish and maintain effective working relationships with the customer, partners, suppliers and subcontractors equivalent stakeholders and partners.
- Managing the inputs and reviews from a commercial and pre-contracting aspect with RFx activities (which may canvass RFP, RFQ, RFT).

What you'll need to succeed

Besides being experienced with the above duties, you will have:

- Tertiary qualifications in a commercial, legal or project management domain is essential.
- NV-1 Security Clearance is mandatory.
- Experience in the Defence industry sector is essential.
- You will have detailed working knowledge of ASDEFCON, complex and strategic acquisition and support procurement and contracting with effective project risk and issue/commercial management.
- Hands-on experience within ITARs/export controls, capability lifecycle costing and costs management
- You will demonstrate an understanding of the correlation with IP & TD management and transfer of technologies, alongside Australian Defence Capability commercials.
- This role will be customer facing with the Defence commonwealth. Therefore, pre-clearances for probity and conflict management will be required.
- Knowledge of typical industry policies and procedures related to regulations applicable to contracts, cost estimating and pricing, procurement, and good business practices
- Experience with Australian Defence commercial contracting and solid

strategic thinking in a commercial environment.

What you'll get in return

Besides joining an exciting business with a plethora of growth opportunities, you will be rewarded with a competitive salary, a bonus scheme, health insurance and mobile payments.

What you need to do now
