### Full job description

Atom Resources provides recruitment services to the building, construction and engineering industries across Melbourne and Sydney. We are currently looking for a Civil Foreman in Melbourne to work on Water renewal projects. The role would suit an experienced Foreman or Supervisor with significant water experience.

#### The Role

- Day to day management of site based water renewal projects
- Carry out audits and reviews of the project plan
- Work with internal and external stakeholders to ensure projects are completed on time and budget
- Develop a strong focus to health and safety on all sites

#### What you need

- Demonstrated leadership on water projects
- Must be able to demonstrate the ability to plan and supervise projects from start to finish
- Effectively communicate and interact with client representatives and all other stake holders
- Participate in internal and external Audits

#### What's on offer

- Permanent opportunity with ongoing training and support
- Work with an industry leader with lots of opportunity
- Work on varied and interesting short-term projects as part of a long term program of work
