Full job description

We enrich our world everyday by championing sociability and helping people to live well. As one of Australasia's largest food and beverage companies, with brands like Dairy Farmers, Dare, Farmer's Union, Pura, Big M.

We have an opportunity for a fantastic candidate to join our Wetherill Park site as Continuous Improvement Technician/ Engineer in a flexible working hrs role. Reporting to the Engineering manager, you will develop the site capability in packaging and milk processing / automation systems.

Whilst adhering to Safety and wellbeing, Quality and environmental standards, the primary purpose is driving the implementation of LD&D's continuous improvement programme to deliver maximum performance at optimum cost. You will use your ability as a business partner to juggle multiple priorities and drive operational and commercial outcomes for the team. Your engaging communication style will see you influence and partner with key stakeholders to drive mutually beneficial commercial results and build technical capability to become a world class operation.

Strong experience with SCADA systems (iFix preferred), PLC programming (Allen Bradley preferred), industrial networking (ASi, Profibus) & vision systems will be essential. You will identify opportunities and lead improvement projects to create value in a highly competitive milk industry.

With a Dual trade (preferred) or an electrical A class license, and a track record of driving continuous improvement, you will gain an experience like no other. Working alongside the best and the brightest, you will achieve individually and as a collective. The opportunities for development are endless! FMCG experience is preferred but not essential.

You may have seen that Kirin & Lion have announced the sale of Dairy & Drinks business to Mengniu Dairy Company Limited (MengniuDairy) on a standalone basis, pending regulatory approvals. We believe this sale will allow
