## Full job description

- Permanent Full-time
- Salary in the range of \$109,757 to \$117,532 per annum excluding superannuation
- Attractive salary package including superannuation and leave loading

The Principal Analyst, Business Architecture is responsible for strategy development and ideation prioritisation, as well as building the enterprise capability and designing and leading the implementation of business architecture to support the strategic objectives of reform activity.

### In this role you will:

- Develop processes for collating ideas and initiatives, shaping them into suitable packages of delivery and ensuring alignment to strategic and operational priorities.
- Manage the testing of prioritised initiatives against the investment framework
- Support current and future capability model and associated integration of technical, process and people capabilities, develop and maintain key enterprise and strategic models, including target operating model, future state capability and outcome blueprint.
- Provide subject matter input, analysis and advice into all projects and change management activities, including systems replacement and future enterprise solutions.
- Ensure alignment of the strategic priorities and objectives of the QCS reform agenda with capabilities, end-to-end value delivery, and organisational structure as they relate to the Transformation Office.
- Monitor and assess key issues, data and information relating to sensitive and complex issues to ensure provision of accurate and timely advice to the Director, Strategic Transformation and the Assistant Commissioner, Transformation Office.
- Build trustful and strong working relationships and engage with key internal and external stakeholders.

- Contribute to a culture which fosters collaboration, evidence-based decision making, innovation, and performance orientation, where employees are passionate about their work and take personal accountability for their actions.
