### Full job description

#### Your new company

Leading Consultancy

#### Your new role

Vacancy for a Big Data specialist to work on exciting projects onsite with a leading financial services organisation in Sydney

#### What you'll need to succeed

- Ideally strong hands on knowledge of Hive, Scala or Kafka.
- Analytical thinker with good ability to articulate the problem statement
- Strong ability to work across structured, semi-structured, and unstructured data, extracting information and identifying linkages across different data sets
- Hands on experience with at least two of the following programming skills SQL & Java(preferred)
- Hands on experience with Big data distributed processing (Spark, Hadoop, Zookeeper, Yarn) & NoSQL
- Strong SQL coding experience within Hive and other traditional MPP Datawarehouse databases.
- Experience and interest in Cloud platforms such as Azure

#### What you'll get in return

An excellent salary and benefits and the opportunity to work on some very exciting projects in the financial service space.
