PROJECT ENGINEER

Full job description

An opportunity for a Project Engineer to step up to an SPE position.! Are you ready to step up a level in your career?

What's in it for you...

Join a progressive civil engineering contractor with an established track record of delivering major infrastructure projects.

- Work with a Queensland-based civil contractor with a healthy and growing order book.
- Take your career to the next level working on major Renewable Energy, Resource, and Transport Infrastructure projects.
- Develop your Project Management skills in a 'growth environment' with direct access to company leaders

What we are looking for...

Motivated Engineers that want to be involved in the full project construction cycle, from precontracts through to project completion. Experience ranging from estimation, pricing, cost control, program, quality, safety, and contract management

- Degree Qualified Civil Engineer with previous civil project delivery (Relevant Responsibilities)
- Experience in Structures, Pavements, Earthworks, General Civils (TMR, RMS, VIC, etc roads ideally)
- Career driven leaders who can represent themselves and the company
