Full job description

One of the leading line maintenance service provider in the United States of America is currently looking for appropriate licensed aircraft maintenance certifiers (B1) to join our team as part of our expansion. Successful candidates will be required to relocate to LAX or anywhere within USA as required.

- Perform line maintenance duties, 'A' checks and interior cabin maintenance for B747, B777, B787, A330, A350 and A380 aircraft types.
- Inspect, troubleshoot, and repair aircraft and/or engines and all associated systems.
- Reading and interpreting manufacturers' and airlines' maintenance manuals, service bulletins, and other specifications to determine feasibility and method of repairing or replacing malfunctioning or damaged components.
- Maintains a comprehensive record system of all maintenance work performed on each aircraft to comply with the component mandates of the Federal Aviation Administration (FAA).
- Perform duty travel to other line station locations primarily within USA
- Possess valid EASA/CAAC/CAAS/CASA (B1) license. FAA A&P license would be an additional advantage
- Aircraft Type-rating preferred: A330/A340/B747/B777/B787/A350/A380
- Minimum of 3 years experience as a certifying licensed aircraft engineer
- Possess Class 3 driving license

Additional Training/Certification may be provided by the company, as needed.
