### Full job description

#### Your new company

Hays Technology Newcastle are currently working with an IT Managed Service Provider in Newcastle who specialise in the delivery of cloud-based solutions to clients throughout NSW and Australia. They have positioned themselves as a market leader and an employer of choice.

#### Your new role

As someone who has a passion for problem solving and a genuine interest in technology you will use your skills to enhance and improve the organisations internal infrastructure and cloud technology.

Reporting to the Infrastructure Team Lead you will be responsible for providing technical solutions across key projects whilst participating in technical support to drive the delivery of critical business outcomes.

#### What you'll need to succeed

You will possess a strong work ethic and drive to deliver high quality service. You will have strong communication skills and be comfortable working across various projects and initiatives.

You will have the ability to contribute to exemplary uptime on infrastructure systems through identifying threats and providing a timely resolution of high priority incidents.

You will have experience with the following technologies:

- Microsoft Windows Server
- Microsoft Remote Desktop Services
- Microsoft Active Directory
- Microsoft Exchange Server
- Virtualisation (VMware preferred)
- Cisco / Dell / Sonicwall (Networking)
- Private Cloud

#### What you'll get in return

This role offers flexible working conditions. Salary will be discussed on an individual basis and be commensurate with experience. 100% remote working applications will be considered.

**What you need to do now**
