### Full job description

Delroy Orchards is seeking an Irrigationist. As an Irrigationist, you will be required to manage and operate existing large-scale tree and a vine crop irrigation network and program as well as assist in the designing and development of new systems for greenfield horticultural developments.

Your duties will include:

- Operation and maintenance of pumping system
- Operation of MAIT control system
- Collect and analyze incoming data for use in irrigation scheduling
- Gather data on soil moisture and match to probe data, advising management of any anomalies;
- Monitor regional climatic conditions and schedule irrigation applications accordingly
- Monitor all electronic soil moisture devices
- Design, implement, and draw conclusions from alternative irrigation application methods; ie drip versus sprayers
- Supervise and assist with general irrigation maintenance
- Ad-hoc irrigation duties as required including flushing valves, washing field filters, tape fixing, boundary run, drip tape emitter testing, dam measurements.

To be eligible, you must have:

At least a relevant AQF Cert II or equivalent and at least 1 year (20+hpw) relevant post qualifications experience

OR

Have at least 2 years (38+hpw) relevant experience

Salary: \$55,000.00 – \$60,000.00 per year
