Full job description

Supervise crews to deliver underground relocation of services, construction of new water mains, sewer lines & storm water projects

CGC have again partnered with one of our key clients to assist them to recruit an experienced Supervisor to lead and deliver maintenance and small scale construction works down towards the Gold Coast. The role is offering security, top end salary, career progression and project ownership. This company have a presence nationally as a leader in the water infrastructure sector. They are now expanding the current project delivery teams based in Queensland due to the increase in secured projects.

As Supervisor you will have full project autonomy and work across multiple local sites. You will work directly alongside the on site engineer you will be responsible for, participating in pre-starts, organizing and scheduling materials on site, plan & set up works, oversee construction, operate machinery when required, show leadership to overcome challenges in a timely manor. Scope of works includes: underground relocation of services, construction of new water mains, sewer lines, storm water, treatment plant construction.

We are actively looking to speak to tried and tested Supervisors in the Water Infrastructure sector who can back themselves to work in a high paced self performing team to deliverer local based projects in SE Queensland.

Selection Criteria:

- 5 years + experience as a supervisor - Must have prior experience in the Water infrastructure sector - Prior experience with a mid-tier contractor who self perform works - Self motivated and work with minimal supervision - Happy to operate machinery as and when required

The role offers long term permanent work locally in South East QLD and the chance to join a growing self performing with a 10 year pipeline of works.

For more information, please call Rory on 0428 026 703 or email your resume direct to rory.todd@cgcrecruitment.com
