They currently have an opportunity for a passionate and committed Fire Safety Engineer who is looking for long-term career development. The company appreciates people who want to contribute to the bigger picture and reward those for their commitment.

They are currently seeking a motivated Senior Fire Safety Engineer looking for exciting and challenging projects and a drive to further progress their career.

A great role if you have a positive outlook is a team player and want to be challenged by working on a diverse range of construction projects.

The Role

You will be responsible for providing high-quality engineering advice on a wide variety of projects. This includes input on fees, facilitating and preparing FEB's, FEBQ's and FER's, liaising with clients as needed and contributing to the overall performance of the team.

Ideally, you'll have a Masters in Fire Safety Engineering, 3+ years experience in fire safety engineering or working towards attaining C10 accreditation and great communication skills.

In a diverse role, you will be balancing a mix of responsibilities, combining your strong people skills with your passion for the technical aspects of the role.

You will optimise productivity and manage your own performance targets.

If you are assertive, see solutions quickly and can think laterally to find innovative design solutions then please don't hesitate to apply.

The Requirements

- Eager and enthusiastic fire safety engineer, with C10 accreditation or, are in the process of working towards C10 accreditation with 3+ years of experience
- Working knowledge of Australian Standards & relevant fire engineering software packages
- Experience liaising with clients & practise good customer service
- A natural people-person, with an approachable and professional communication style
- Exceptional attention to detail
- Excellent written language and verbal communication skills
- Ability to work to deadlines and use your initiative on a daily basis
- Outstanding organisational and time management skills
- Terrific team player who's able to develop and foster positive and productive relationships but can also work alone
- Ability to remain calm and effective in an often fast-paced environment

The Rewards

If you're looking for your next challenge and an opportunity to work in a fast-growing consulting business then look no further.

This company is known for their outstanding business culture, where employees are consistently valued and given the opportunity for excellent career progression.

With a high focus on work-life balance, they value the well-being of their employees first and foremost.

The nature of their business is team-focused, fast-moving, dynamic and innovative.

You will need to be flexible and able to effectively deal with changes in business needs as they arise.

The Way Forward

So if you're currently looking around or you've been thinking about exploring what options may be available to you then please apply and Craig Andresen will contact you for an informal/confidential discussion.

Rest assured that CSA Recruitment treats all applications with the strictest of confidence.

We always welcome conversations with skilled and experienced professionals so please feel free to get in touch and/or recommend us to anyone credible within the industry.
