Full job description

Your new company

Our client is one of the world's leading providers of engineered technology globally and they supply and service the products used by clients mainly within process industries such as Power and Minerals sectors here in Australia. They have an outstanding reputation for designing and engineering high-quality, durable, customized solutions. Two permanent vacancies CNC Machinists have become available within their VIC site located in the western suburbs of Melbourne.

Your new role

This exciting role will involve stripping, repairing, and testing mechanical seals, couplings and associated equipment. You will be required to have consistent and timely completion of service-related documentation. Ensure all tasks are carried out in accordance with OHS policies and procedures and safe work practices. The ideal person will be able to utilize a manual Mill, Lathe and Saw. You will be a part of an industry leading team that specialise in servicing niche products such as mechanical seals, pumps, and compressors.

What you'll need to succeed.

To be successful in this role please see a few key requirements outlined below:

- Fitter and Turner Trade qualification or equivalent
- A minimum of 1 year industry experience post apprenticeship including product machining (turning, drilling, milling)
- Ability to take responsibility and be accountable for actions to ensure client satisfaction
- Customer focused
- Capable of achieving objectives and delivering results
- Strong communication skills

What you'll get in return

You will be offered an attractive and competitive salary package and you will work with a well-established business unit who have a great reputation not only in Australia but internationally. This role will offer you a next step in your career to growth and development and it really is an opportunity not to be missed.

What you need to do now
