Full job description

Your new company

This large, fast growing, diverse and established Municipality based in Melbourne's Northern suburbs, is currently seeking a Technical Drainage Engineer to join their supportive team on an initial 3-month contract role, with the opportunity to extend.

Your new role

Reporting to the team leader, your day to day responsibilities will be carrying out drainage investigations, checking plans and onsite stormwater detention work, responding to legal point of discharge applications and responding to notifications from other authorities conducting works within the municipality.

What you'll need to succeed

The successful person will be a qualified civil engineer, with experience in onsite detention systems, drainage subdivisions and familiar with Spear, CRM and Objective systems. You will also have strong working knowledge and understanding of local and government standards, as well as strong written and verbal communication skills.

What you'll get in return

Work for a company that will give you a foot in the door, you will be recognised for your achievements whilst enjoying a healthy work-life balance in a great team atmosphere. This is a 3-month contract with the potential of extension.

What you need to do now

If you're interested in this role, click 'apply now' to forward an up-to-date copy of your CV or send direct to Alissa.Sara@hays.com.au.
