### Full job description

#### Your new company

Hays Construction and Property are looking for an experienced Civil Engineer with water, wastewater or sewerage experience to join one of Queensland's largest Civil Consultancies in their Project Management and Engineering team.

The client is a market leader in Australia among their field and currently have an exciting opportunity for an experienced Engineering professional to join their Toowoomba based team on a permanent basis.

#### Your new role

This role will be very hands on and provides exposure to several different aspects to the firm and project teams. Reporting to the Project Manager, you will assist in developing project objectives, project specifications, determine project schedules, control the project costs, perform site inspections, advise on the delivery of technical aspects of projects, coordinate personnel to prepare for on and off flood rectification works, liaise with relevant stakeholders including Government and local council, prepare risk assessments and assist in the administration of the project including monthly claims, variations and EOT's. Your level of knowledge and relevant experience will ensure your success in submitting high quality reports and ensuring the project are completed in accordance to the plans. Experience within civil space is required, in particular, with local & regional council infrastructure upgrades.

#### What you'll need to succeed

As the successful candidate you will have extensive experience in constructions projects, be Degree qualified in Engineering have a highly energetic approach to your work and excellent communication skills. Also, strong advisory and facilitation skills, extensive leadership experience and demonstrate a commercial mindset.

#### What you'll get in return

This role is to lead a team in one of Southern QLD's largest consultancies and within a high performing and close-knit team that have an excellent reputation

for staff retention and a strong pipeline of work in the industry. This role will allow you to progress and develop your skills to help you become more valuable to an organisation. Furthermore, this organisation has an amazing welcoming, supportive culture where you are given the tools to succeed.
