Full job description

Your new company

A Gold Coast based consultancy that service nationally are looking to add a Senior Structural Engineer to their team. This comes after a recent period of growth. They are looking for someone to join the team on a long term basis.

Your new role

As a Senior Structural Engineer, you will be required to lead, advise and mentor the structural engineering team. You will interact with clients, manage and delegate work tasks and provide vital support to the Structural Team Lead.

What you'll need to succeed

You will possess a Civil/Structural Engineering degree and have full working rights in Australia, alongwith 7+ years' experience in a similar role. Proficient across a variety of software platforms and a good knowledge of Australian and Local Standards is essential. You will possess the ability to liaise with all disciplines of management within the company.

What you'll get in return

A long term position with a local company. A culture focused around employee value and a strong team ethic. Competitive salary package negotiable on experience.

What you need to do now

If you're interested in this role, click 'apply now' to forward an up-to-date copy of your CV to harvey.rivers@hays.com.au, or call Harvey now 0755264291.

If this job isn't quite right for you but you are looking for a new position, please contact Harvey for a confidential discussion on your career.
