Full job description

Rewarding opportunity for an experienced Utilities Locator

We are now recruiting an experienced Utility Locator for metro based projects. Our client is a local underground locating contractor who are assisting civil contractors to deliver infrastructure projects across Perth. With many projects already started we are now recruiting a Senior Locator on a full time / permanent basis.

You're new Role

This is a fantastic opportunity for an experienced Senior Locator to be part of a growing business. You will be required to provide technical support for sub-surface utility and asset location services using a range of GPR techniques and familiarity with industry standards and statutory requirements.

Experience / Duties

- DBYD Licence (Ideally)
- HP Ticket (Ideally)
- Driver's License
- Excellent understanding of Australian and Industry Standards required for the location of subsurface utilities
- Ability to plan and safely execute utility surveys and location applying industry best practice.
- Ability to plan and execute associated requirements for location surveys including OH&S and statutory requirements.
- An excellent working knowledge of best practice methodology and associated terminology for sub-surface asset and utility location.
